

# MP | MOORUNDIE P A R K

We look forward to seeing you at our On Property Ram Sale on Friday 15th September this year. Auction starts at 1pm, inspection from 10am and lunch at 12noon. We will be offering 180 rams as we did last year. Genomics information will be available on request.

We hope everyone has enjoyed good lambing's this year. We have heard some very positive number so far! Lets all remain optimistic about our industries future and continue to breed animals that we can be proud of.

MP T 49 is the pick of our reserve rams this year. He is from one of our own families, coming out of a ram lamb syndicate.

He has a long stapled, soft and stylish great handling medium wool on an uncomplicated body.

He has a silky muzzle with excellent temperament. He is good on his feet, square and pure.

He has width of body and depth in his hind quarter. He will have good meat numbers when tested.

In our opinion he has many of the traits that are required to make merino enterprises profitable. We are pleased to retain these genetics so that our clients can benefit from them in the future.

Angus thinks he is alright too!

## Moorundie Park Latest News

It was nice to be amongst the ribbons again at the SA Northern Merino Expo in Jamestown on 10th August 2023. This is a relatively new field day, but one that is growing each year. Our rams presented well and great to catch up.

Our use of the Barfeeds Lucerne Pellets was successful this year. The first 20 rams in the sale have been on them since March. It proved to be a great stable healthy feed that has allowed these rams to realise their potential.

We recently completed a shade shelter over the handling race in the shearing shed yards. It will make sheep work in the summer more enjoyable. Our building mates Dale and Dougie did an awesome job as always!
